PROFESSIONAL LASER TATTOO REMOVAL

Choosing the right clinic...

As tattoos gain popularity - so does tattoo removal! Unfortunately, not all methods of removal are equal and with the vast array of choices that are available it is easy to feel overwhelmed and confused.

So how do you choose?

It is advisable to do a little research before investing in treatment if you want to ensure that treatment is effective, safe and cost effective. Laser, when performed correctly and appropriately, is recognised as being the most effective method of treatment. When looking at clinics check the following:

1. Does the operator have any relevant qualifications and what experience do they have? Don't be afraid to ask - they should only be too pleased to show you their hard earned certificates!
2. Is medical malpractice insurance in place and public liability displayed at the premises?
3. Is protective eyewear provided?
4. Is the treatment carried out in a controlled area? There should be no danger to others so no windows or children!
5. Is a patch test performed? All insurance companies stipulate that this must be carried out prior to treatment.
6. Is the laser serviced regularly and is there paperwork to back this up? You can ask to see it.
7. Are they registered with a governing body such as the Care Quality Commission?
8. Is the laser classed as a medical device and is it an ACTIVE Q-switched Nd:YAG? **

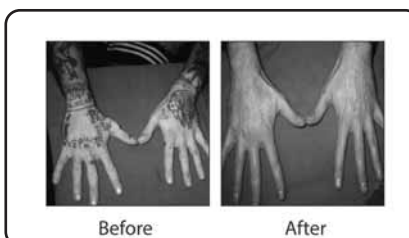

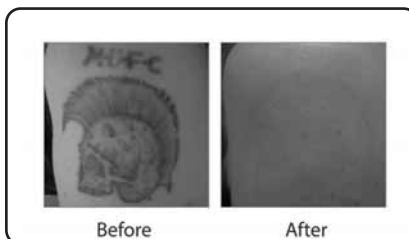

**All of the clinical studies that have been performed over the years have been with Active Q-Switch systems, and there have been NO clinical studies to show that passive Q-Switches are effective. You certainly can get some fading with very simple black tattoos, but they take far more treatments, (more cost) and complete clearance is rare.

9. Ensure that they advise leaving intervals of at least 8 weeks between treatments to enable skin to recover whilst fading takes place.

10. Is there any follow up if things go wrong and do they have a complaints policy?

Let's face it - most people wouldn't know one end of a laser from the other - but we are experts in the field with a wealth of experience.

ALL treatments are performed by Registered Nurses and our team have undergone specialist training including Core of Knowledge, BTec in Laser and IPL and also attend regular clinical update training. Our Clinical Lead Nurse has been published in the Journal of Aesthetic Nursing and we have appeared on Channel 5's documentary series 'Tattoo Disasters'.

GASTECH

The Independent Gas Specialists

Telephone **01793 848800**

6 Templars Way Ind. Est. Marlborough Road, Royal Wootton Bassett

BEAT THE RUSH at **Gastech** and we know that, traditionally, heating breakdowns increase in the colder months.

Many of the breakdowns we attend to at the start of the heating season could have been prevented by maintenance. Unfortunately, faults on the heating system do not show themselves until the cold weather arrives. By then, most gas engineers are busy, causing a delay of days to arrange a call out. **Gastech** are a local, family run business with 30 years + experience.

Based in Royal Wootton Bassett with a satellite office in Marlborough we always have an engineer available in your area.

With increasing gas prices it is essential that your gas boiler is running properly to ensure it is safe and efficient.

Our engineers are happy to service all gas and LPG boilers including warm air systems.

Age of boiler is not a problem and we would be there to service it, not to tell you that it needs replacing.

So, *beat the rush*. Call **Gastech** on **01793 848800** to book your heating service

Homecare to help you live life your way

Our discreet and friendly staff will help you with as little or as much as you want, including:

- * A hand with domestic tasks
- * Help with personal care or eating
- * Someone to walk the dog or feed the cat
- * A little help or company if you are recovering from illness
- * Long term, short term or emergency care
