Grants
Dental Practice

DENTAL PRACTICE MERGER

GRANTS DENTAL PRACTICE

in association with

HANLON & GARDNER DENTAL PRACTICE

We are pleased to announce Grants Dental Practice will be relocating to Hanlon & Gardner premises from 1st April 2016.

In preparation for this we are holding an OPEN AFTERNOON 2-5pm on THURSDAY 31st MARCH

We warmly invite existing & prospective patients to meet the new team.

Both Grants and Hanlon & Gardner Dental Practices have been a familiar sight on Royal Wootton Bassett's high street. Well known by the local community for providing high quality, professional caring dentistry for many years; It is imperative this care continues.

This combination of the newly united businesses will offer a wide range of treatments with a modern approach to developing and expanding the dental services offered. A union to guarantee the delivery of exceptional patient care, high quality dental materials with an approachable empathetic dental team. Our mission is to invest in people; both patients and dental team alike, because together we can truly thrive. Patient empowerment is at the heart of everything we do; our goal is to exceed your expectations.

In April 2015 Elizabeth Hudd was given the honour of securing the acquisition of Ian Grants Dental Practice. The vision was to guarantee the reputation and legacy

for the practice. Since then the practice has worked hard to expand its services from two days a week to a full time practice this, amalgamation will allow this to transpire.

Elizabeth's 15 years in dentistry has given her a wealth of experience in providing dental treatment in many settings. She has an amazing support team who all share the same vision for providing an exceptional level of patient care and service. Each patient will have an individually tailored dental care package.

The team specialises in helping nervous patients overcome their fears. By giving them time, reassurance and working together at a pace they can cope with, we can build rapport and so help them overcome their fears. A shared goal is for our patients to have confidence when they visit.

Families are welcome. We will encourage young children to join the tooth fairy club. Child - friendly advice and fun experiences at her dental practice will give the youngsters,

a great start to oral health and the importance of good eating habits and mouth care for life. Being a mother of two young children, Elizabeth understands the difficulty mothers have of going to appointments with their children. To help with this problem Elizabeth has dedicated a member of her team to assist with the children while mum is having her treatment. Elizabeth is determined to make it easier for everyone to visit her dental practice. Early morning and some late evening appointments will be available to those who are unable to attend appointments during the day. This flexibility takes the stress out of taking time off work. A stair lift will ensure access to the practice for our disabled and elderly patients. Elizabeth and the team want to do the very best for all their patients whose interests are at the forefront of every decision. Any suggestions for practice development will be gratefully received.

Are you bothered with skin imperfections such as skin tags?

Skin tags are common skin complaints often resembling a soft small piece of hanging skin. Derived from skin cells & composed of loose fibrous tissue they can present as either single or multiple. Their often hyper-pigmented colour makes them more obvious & although harmless they can be irritating & cosmetically unattractive. They appear the shape of a lollipop/mushroom & vary in size - from a tiny speck, smaller than a grain of uncooked rice, to a large pea size, or larger.

They are found on perfectly healthy people & are not directly associated with any other major medical conditions. They become particularly irritating when they develop in sensitive areas.

They appear anywhere on the body but are most frequently found on the neck where friction from necklaces, collars and scarves are to blame or under the arms where friction from arms rubbing & seams from clothes are the initiating factor. However they often appear in very sensitive areas such as under the breasts or near the groin, the genitalia & around the eye, even presenting between eyelashes & thus affecting vision.

Skin tag removal treatment in ultra-sensitive areas such as the above areas is a skill requiring much dexterity as well as a high level of experience & expertise. It is of vital to choose a highly qualified professional to perform the intricate precise work involved in electrolysis skin tag removal as areas are sensitive & greater risks are involved. Working close in high risk areas demands a steady hand, experience, thorough training & excellent hygiene & sterilisation. Electrolysis is a quick, easy, safe & effective method of skin tag removal and useful for those even from between the eyelashes. This method

results in immediate removal from the skin of the tag and can take seconds depending on the size of the tag. Treatment can be a little uncomfortable with some experiencing no discomfort at all. As well as Skin Tag removal other procedures using electrolysis include: 'thread veins, blood spots, vascular blemishes, warts, moles, cysts and many other skin complaints' which can all be successfully treated using electrolysis.

Consultations are free & treatment can often be performed within the same appointment if appropriate. To arrange an appointment, phone today on 01793 686486 or book online www.swindonlaserclinic.co.uk

Would you like to achieve natural looking beauty? With 20+ years' experience in semi-permanent make up, find out more about achievable perfection...

Permanent make up helps restores over-tweezed eyebrows, brings back colour & definition lost through the years by the aging process, helps to correct asymmetry in facial features, & give you a soft, natural look even when you're not wearing make-up - saving you time and money.

The procedure involves carefully implanting hypoallergenic pigments gently into the upper dermal layer of the skin. By 'drawing' precise 'lines' that look like very fine hairs eyebrows can be restored to their natural beauty. Striking eyelines and liplines that bring back definition to your face make you look younger and feel more confident. A full lip treatment can even restore natural colour to your lips so that you don't have to use lipstick every day.

Wendy Stallard has 20+ years' experience, and runs clinics in London and Wiltshire.

Wendy is Bupa accredited & fully insured.

GASTECH

The Independent Gas Specialists

Telephone **01793 848800**

6 Templars Way Ind. Est. Marlborough Road, Royal Wootton Bassett

BEAT THE RUSH at **Gastech** and we know that, traditionally, heating breakdowns increase in the colder months.

Many of the breakdowns we attend to at the start of the heating season could have been prevented by maintenance. Unfortunately, faults on the heating system do not show themselves until the cold weather arrives. By then, most gas engineers are busy, causing a delay of days to arrange a call out. **Gastech** are a local, family run business with 30 years + experience.

Based in Royal Wootton Bassett with a satellite office in Marlborough we always have an engineer available in your area.

With increasing gas prices it is essential that your gas boiler is running properly to ensure it is safe and efficient.

Our engineers are happy to service all gas and LPG boilers including warm air systems.

Age of boiler is not a problem and we would be there to service it, not to tell you that it needs replacing.

So, *beat the rush*. Call **Gastech** on **01793 848800** to book your heating service
